- Fusion-welded Sash Panels Airtight mitered corners efficiently keep air and water from infiltrating the home.
- Galvanized Reinforced Steel Sash Profiles 12-gauge steel helps create a strong and resilient unit.
- Chambered Profiles Honeycomb chambers throughout the vinyl act as pockets of insulation to increase thermal efficiency.
- Double-strength 3/4" Tempered Insulating Glass Unit Strength and overall performance is multiplied.
- Vinyl Threshold Easy to clean and maintain.
- Multi-Point Lock Secures door at multiple points with one handle.
- Steel Lock & Striker Provides long-lasting performance.
- Easy Operation Patented, dual-tandem nylon wheels on a raised rail protects the wheels from dirt and debris and minimizes friction.
- Aluminum Screen Frame Heavy duty design to reduce binding and maintain effortless operation.

For Doors with Internal Blinds, Blinds are located between the glass.

Blinds are White ONLY.
